

Tile Trim

Description

Safario Tile Trim creates clean lines and protects the edges of your tiles, giving your project a slick, professional finish. The trim serves two purposes, to cover the exposed cut edge of the tile, and to protect skin from the sharp edge of a cut tile

Finish

Safario Tile Trims are available in Aluminium & Stainless Steel

Construction

Fabricated in accordance with ISO 2768 from code gauge steel in standard lengths of 2.44mtr/3mtr.

Key Features:

- ✓ Quick-to-install
- ✓ Factory built
- ✓ Long life / durable / robust
- ✓ Design cost Savings
- ✓ Wide range of sizes
- ✓ Special colours/coating/ sizes on request
